

DISCOVER THE REVOLUTIONARY SATA QMR QUICK MATERIAL REGULATOR!

Where application processes require frequently recurring adjustments between reduced and fully open material flow rates, the SATA QMR is the solution to save time and money.

This **material flow regulation device** allows to **preset the required reduced material flow rate** which can then be activated quickly, precisely and in reproducible fashion **at the push of a button**.

The **"release function"** allows the painter to conveniently switch back to the **fully** open position within seconds.

BENEFITS

- The position of the material regulation and consequently the material flow rate can be adjusted at the push of a button
- Helps the user set the required material flow rate quickly and in reproducible fashion
- Retrofitting, maintenance-free and easy to operate
- Suitable for application processes which require specific, reduced material flow rates on a regular basis
- Release function: Simply by pulling, the material flow regulation is being fully released again

The SATA QMR offers a retrofit option for:

SATAjet X 5500 & 5000 B Series

Order No. 1186213, 1 pk

Order No. 1162817, 2 pk

SATAjet 100 B, 1500 B & 1000 B Series

Order No. 1185596, 1 pk

SATAminijet 4400 Series

Order No. 1185603, 1 pk
